linkedin.com/in/hanzla-sajid-flutter • github.com/HanzlaSajid888

PROFESSIONAL SUMMARY

Detail-oriented Mobile App Developer and Flutter Developer with hands-on experience building scalable, high-performance cross-platform applications. Proven track record of integrating real-time Firebase features, designing clean, responsive UI/UX architectures, and managing client-centric project delivery. Adept at translating complex requirements into efficient, maintainable code within collaborative team environments.

PROFESSIONAL EXPERIENCE

Application Developer Intern

Jun 2025 – Sep 2025

Techeezy

Lahore, Punjab, Pakistan (On-site)

- Collaborated within a development team to architect, build, and deploy production-ready cross-platform mobile applications using Flutter and Firebase.
- Designed high-fidelity, responsive UI screens adhering to Material Design principles while optimizing app responsiveness and rendering speeds.
- Contributed directly to active client projects, participating in technical discussions and requirements gathering.

KEY PROJECTS

EduStream – School Management System

Cross-Platform (Web + Android + iOS)

Flutter | Dart | REST API | JWT Architecture • github.com/HanzlaSajid888/schoolsystem

- Built a secure, comprehensive institutional application optimized natively for Web, Android, and iOS deployments.
- Designed an interactive administrative dashboard utilizing complex data visualization tools (`fl_chart`) to track student profiles and financial records.
- Developed features for generating automated PDF invoices, embedding dynamic QR codes, and incorporating regulatory FBR compliance integrations.

Skillora – Skill-Sharing Mobile App

Mobile (Android + iOS)

Flutter | Firebase | Real-Time Systems • github.com/HanzlaSajid888/skillswap

- Engineered a peer-to-peer educational networking platform enabling users to teach and acquire skills through interactive real-time features.
- Integrated real-time chat modules along with seamless audio and video calling functionalities to maximize user engagement.

LuxeMart – E-Commerce Mobile App

Mobile (Android + iOS)

Flutter | Firebase | UI/UX Architecture • github.com/HanzlaSajid888/grproject

- Developed a dynamic cross-platform shopping application featuring structured product listings, intuitive cart functionalities, and secure user authentication via Firebase.
- Implemented clean, user-centered layouts ensuring efficient real-time data streaming and continuous interface synchronization.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Cross-Platform App Development

State Management: Provider, BLoC, GetX

Backend & Database: Firebase (Auth, Firestore, Real-Time DB), REST API, JWT Authentication

UI/UX Design: Material Design, Responsive Layouts, User-Centered Design

Programming & Architecture: Dart, Object-Oriented Programming (OOP), Clean Architecture

Tools & Platforms: Git, GitHub, VS Code, Android Studio

Packages & Libraries: fl_chart, pdf, printing, shared_preferences, google_fonts, intl, http

EDUCATION

Bachelor of Science in Computer Science	2023 – 2027 (Expected)
University of Gujrat (UOG)	Gujrat, Pakistan
Intermediate in Computer Sciences (ICS)	Sep 2021 – Sep 2023
Punjab Group of Colleges	Gujranwala, Pakistan
Matriculation	2019 – 2021
The School Kamoke	Kamoke, Pakistan

ACHIEVEMENTS

- Attended **Code for Cause**, a 3-day forum focusing on AI integration, leadership, and technological innovation (Jul 2025).
